Work Experience

FRONT-END DEVELOPER INTERN

SparkAmplify | July 2021 ~ Present

- Enhanced the drag and drop UI/UX to become smoother to use and make code readability simpler.
- Implement a pop-up form that can be designed by the user and can be auto-filled using the LinkedIn Autofill API.
- Implement a security function to make unauthorized users can't use the feature that they don't have access to.
- Helping backend engineers design or fix database models, controllers, and APIs.
- Reviewing and testing team's code to provide additional perspective and catch errors.

Project

FRONT-END DEVELOPER

OMDB | May 2021 ~ June 2021

- Creating and designing the website layout.
- Connecting an open API that returns a list of movies based on user input.
- Used React to allow users instantly update the interface without reloading.

TIMELOG | Feb 2020 ~ April 2021

- Creating a users tutorial page guide to show how to use timelog feature.
- Creating a stopwatch feature to provide a simple and more accurate activity time tracking.
- Creating animation effects on the website.
